>> For a new ■ urban joy.

smart has always been more than a car manufacturer: smart is a great idea for urban mobility. An idea that is always in motion because it sees the status quo as a challenge rather than an obstacle. An idea that responds to both the big and the small questions of urban traffic with a smile. And with answers that make life in the city easier, brighter and more carefree each and every day.

»» For more
smiles
per hour.

The smart fortwo sets standards in its class with a trendsetting design and an array of clever solutions. Innovative assistance systems for more safety and comfort, an unparalleled turning circle, an amazing amount of space and high-quality workmanship are just some of the highlights of the smart fortwo. Talking of highlights, the smart fortwo is also available as a cabrio. Because the sun has also been known to shine in the city.

» For more
WOW
per view.

A fresh look that is striking and dynamic. The smart fortwo has a design idiom you click with. In cabrio guise, the look outside is just as impressive as the look inside: the electric tritop fabric roof with glass rear windscreen opens at the push of a button when driving at any speed – allowing you to see your city from a new perspective.

Extremely short overhangs: the wheels are positioned on the outer ends of the vehicle – a highly unusual design feature in this form. And not only do they look good; in combination with the rear engine concept this enables the best possible utilisation of space and a greater feeling of spaciousness.

The design of the lights and the radiator grille in a honeycomb design dominate the look of the striking front. On request, the front lights in a clear glass look welcome you with the optional welcome function and elegantly curved, integrated daytime driving lights featuring LED fibre-optic technology.

Optional panoramic roof made of break-resistant polycarbonate: not only does it look good from inside and outside, it creates an even greater feeling of spaciousness. And ensures that you don't miss the sights of the city – such as traffic lights!

The solid roof with black fabric covering lends the smart fortwo the look and elegance of a cabriolet. An unusual idea – and typically smart.

» For more love per detail.

Typically smart and unmistakable: the smart fortwo combines characteristic design features such as the two-colour concept consisting of tridion safety cell and bodypanels with unusual ideas and details. The result is a design that clearly stands out from the other cars on the road and makes the city a little bit more exciting.

The tail lights are organically integrated in the rear end of the tridion safety cell. As an option, the sophisticated design can be made even more elegant with tail lights in LED technology.

The electric tritop fabric soft top with glass rear windscreen can be opened quickly and infinitely variably – using the 3-button comfort key before setting off or also at any speed while driving. You can choose whether to simply open the soft top, retract it fully or enjoy a pure cabrio feeling by also removing the roof bars and stowing them in the tailgate.

The tritop fabric soft top is available in a choice of colours and ultimately defines the look of your smart fortwo cabrio.

» For more
room
per personality.

The smart fortwo shows true greatness with its wide-opening doors and an amazingly spacious interior. And with an exceptional design that sets standards in this class.

»» For more style per mile.

Plenty of room for a very special style: you'll immediately feel at home in the interior of the smart fortwo. Enjoy a feel-good atmosphere that turns the whole city into your living room.

The ease with which you glide into small parking spaces might be all that reminds you that you are actually sitting in a small car. The interior is surprisingly spacious with materials that are a pleasure to look at and touch and smooth design lines you will enjoy with every kilometre you drive. Many surfaces are generously covered with fabric and boast colour combinations that range from stylish to extravagant. With all this to enjoy it's almost a shame that you find a parking space so quickly – because you may not feel like getting out at all!

The drawer in the centre console¹ is a clever idea: it creates space where there was none before for stowing small items away securely and out of sight.

» For more fun per function.

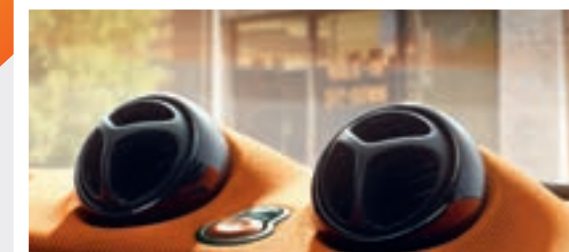

A doubly delightful interior: in the smart fortwo you'll be thrilled by the high functionality typical of smart. From very surprising stowage space solutions to details such as the design of the air vents – every detail combines functionality with emotional appeal. A functional highlight of the interior is the optional Media-System with a 17.8 cm (7-inch) multi-touch display like a modern smartphone.

The loudspeaker covers can be enjoyed even when there is no music on: the honeycomb design is also cleverly taken up here. Because what sounds good can look good as well.

The fabric-covered dashboard¹ and door panelling demonstrate attention to detail.

The large air vents on the dashboard ensure plenty of fresh air. And when not needed they display the smart logo when closed.

The retaining strap for securing items on the passenger seat is a simple, yet exceptionally practical idea. It keeps your bag safely in place and is quick to secure and remove thanks to a Velcro fastener.

The mix of materials and colours in the interior underlines the unique character of the smart fortwo – and gives every equipment line its own special touch.

The instrument cluster with with a colour 8.9 cm (3.5-inch) TFT display¹ has all the data and information you need during your journey. As an option you can supplement the information centre of your smart fortwo with a dashboard instrument showing the revs and the time.

¹Standard in conjunction with passion, perfect and prime.

»» For more punch per inch.

Rear-mounted engine and rear-wheel drive: does that sound more like a sports car than a car for the city? That's right. And these features are unique to the smart fortwo in this class.

Rear engine and transmission: the smart fortwo owes its iconic appearance to a very special construction: the engine and transmission are housed at the rear and make the extremely compact design possible. The efficient 3-cylinder petrol engines with a manual 5-speed transmission offer plenty of driving fun, even on short errands in the city. And you can opt for extra comfort with the twinamic automatic 6-speed dual clutch transmission. The cutting-edge transmission technology which smart is pioneering in this vehicle class shifts gear so fluidly and efficiently that you will barely notice gearshifts while driving. Enjoy plenty of driving fun as you glide around the city.

»» For more options per shift.

With the different shifting options offered by twinamic you can decide how you would prefer to move through the city. From efficient and comfortable to dynamic and sporty – you choose your driving style at the simple push of a button.

In automatic mode you can choose between the shift programmes “Comfort” (E) and “Dynamic” (S). In both programmes gear changing is fully automatic and without any loss of traction.

The automatic “Comfort” (E) gearshift programme shifts to the next gear at lower revs, so you cruise comfortably and fuel-efficiently around the city.

The automatic “Dynamic” (S) gearshift programme has a higher shifting speed. This is the right programme for you if you like a sportier driving style with more dynamic acceleration.

In manual mode you change gears with the shift lever and so determine the shift points yourself.

With the shift paddles on the multifunction sports steering wheel¹ you have smooth gear changing at your fingertips. This works in both manual and automatic mode.

The twinamic 6-speed dual clutch transmission consists of two transmissions and two clutches. One transmission serves the odd gears and the other the even gears and reverse gear. Both transmissions are active whilst driving, but only one is ever connected to the engine. This means that for every gear the next highest or lowest gear is always “at the ready”. Gear shifting then simply takes place by switching the clutch – in a flash and without any loss of traction. This makes for much more efficient shifting than with a conventional transmission, regardless of whether you are driving in manual or automatic mode.

¹Shift paddles only in conjunction with BRABUS Style, Sleek Style package or Urban Style package.

» For more agility per road.

The tiniest turning circle: in this discipline the smart fortwo is unrivalled. Thanks to its length of just 2.69 m and the Direct-Steer system with variable ratio you can almost turn on the spot – the turning circle of just 6.95 m¹ takes some beating! And that will often make your life much easier. For example, when you spot a free parking space on the other side of the road and simply do a U-turn. And thanks to the high seating position and the good all-round visibility you're likely to see plenty of free parking spaces in the smart fortwo.

¹Measured from kerb to kerb.

» For more
space
per life.

Whatever you need every day – simply take it along with you! You will be amazed at how much fits into a car that seems so compact on the outside.

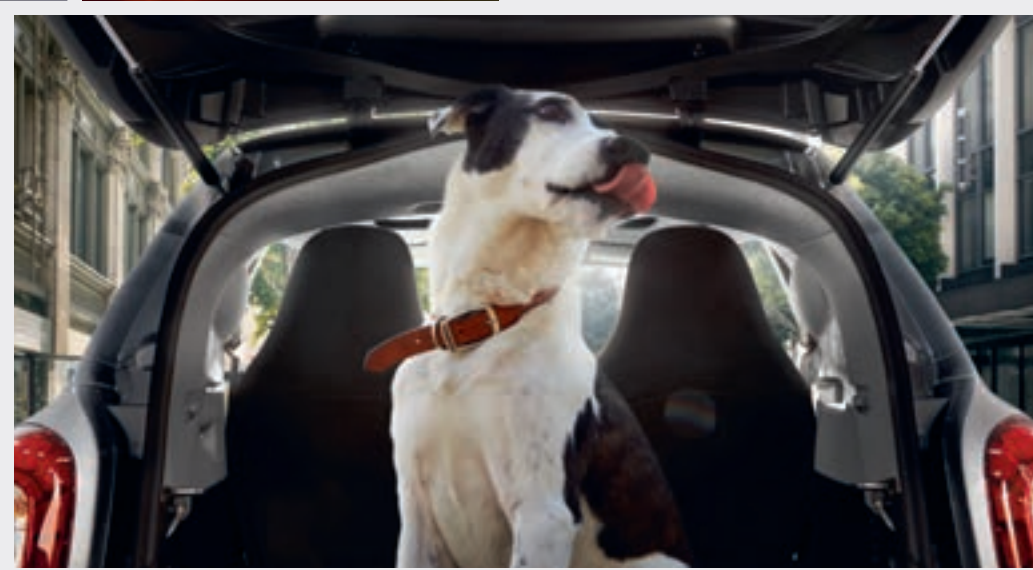

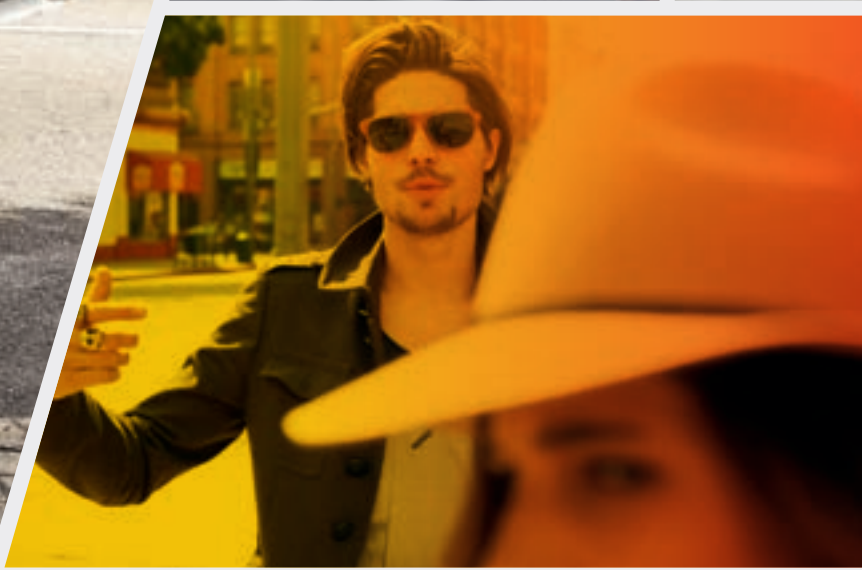

»» For more
space
per life.

The split tailgate facilitates loading and unloading. Simply open the top section to stow smaller items inside the car. And for larger items fold down the lower section for convenient loading.

The passenger seat backrest can be folded right down to extend your options: items up to 1.55 m in length fit easily in the smart fortwo.

With cargo volume of up to 350 litres the luggage compartment of the smart fortwo is surprisingly spacious. So what you take along with you is determined less by the available space and more by you yourself.

» For more phone per smart.

The perfect connection between your smartphone and your smart: enjoy more freedom when driving and let your two mobile companions become one. You can conveniently pair the smart Audio-System¹ with your smartphone via Bluetooth® and USB. And you can additionally connect the smart Media-System² with the aid of the Android Auto app³. Both variants have one thing in common: thanks to the push-to-talk button and intelligent voice command function, you will have everything under control during the journey – above all, your steering wheel.

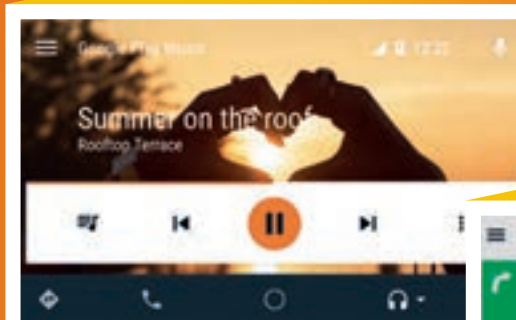

For Android, for your car, for everything. With the Android Auto app³ your Android smartphone and the smart Media-System merge to become the perfect team. Once connected via USB and Bluetooth® there is nothing to keep you from music, navigation or communication. This is because the app gives you access to your smartphone's functions from your smart Media-System. That is just as straightforward as it sounds, and the interface is easy to use, too. The simplified way of displaying your smartphone apps makes operation using the buttons on the smart media system and steering wheel particularly intuitive and safe. Connection via the MirrorLink® app⁴ is similar – and equally simple.

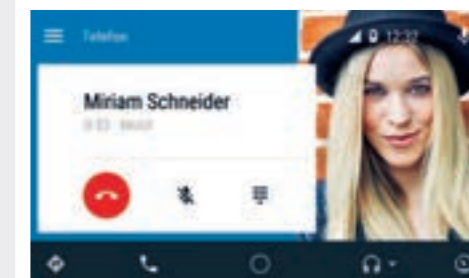

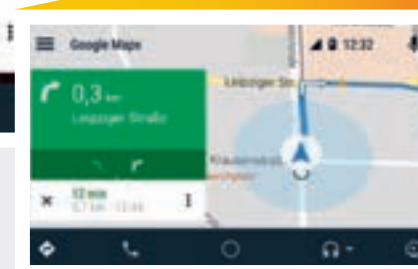

Voice control at the touch of a button – with push to talk: if your smartphone is connected with your smart there is not much else to do – but there's plenty you can say. Whether Siri, Google Now, Cortana or Samsung S Voice is your preferred assistant, just pressing the push-to-talk button on the right of your multifunction steering wheel will activate voice control and make your wish their command. During the journey you can navigate to a new destination using Google Maps, send or listen to a text message, request your favourite song from a playlist and do – or ask for – much more.

»» For more guard per body.

Because it's best to prevent dangerous situations from arising at all, the smart fortwo has a whole host of innovative assistance systems to prevent accidents from happening. Such as the optionally available Active Brake Assist.

Active Brake Assist¹

At a speed of 30 km/h or above, the optional Active Brake Assist emits a warning tone to warn against the risk of a collision with a vehicle in front detected by means of radar technology. If the driver fails to react to the warning by neither braking nor manoeuvring, light braking is initiated autonomously. If the driver reacts by braking, braking assistance is provided during the emergency stop. In this way, Active Brake Assist can help prevent collisions with vehicles in front or mitigate the consequences of possible accidents.

Lane Keeping Assist

The optional Lane Keeping Assist system is activated at a speed of 70 km/h. It monitors the road ahead of you with a camera and warns you with an acoustic and a visual signal in the instrument cluster if you leave your lane.

Crosswind Assist

Sudden gusts of wind can lead to tricky situations, especially if you are driving fast. Crosswind Assist, a standard feature, detects deviations from straightline stability and specifically brakes individual wheels so that you do not have to counter-steer as strongly.

The tridion safety cell

The core element of the innovative smart safety system is not only responsible for the typical smart two-colour look – it also assumes the main role in occupant protection. Just like a nut is protected by its hard shell, the tridion safety cell made of 75% high-strength steel keeps its precious contents safe from harm. In conjunction with further components such as crash boxes and deformation elements, the tridion safety cell ensures maximum safety in a minimum of space.

Airbags

In addition to airbags for driver and passenger, the smart fortwo comes with a kneebag for the driver and two head/thorax bags in the driver and passenger seat backrests as standard.

¹In conjunction with BRABUS Style, only available with front fog lamps or LED & Sensor package.

»» For more life per style.

In addition to the smart fortwo with standard equipment, the smart fortwo and the smart fortwo cabrio are available in three individual equipment lines, each with their own individual character. Extravagant, elegant, stylish – whatever your lifestyle there's a smart fortwo that fits it. How do you find your ideal smart fortwo? Select your favourite equipment line and engine and add optional equipment packages and individual options for even more design, comfort or functionality.

» Standard equipment.

Even the standard equipment is anything but ordinary, and truly smart fortwo. With lots of innovative safety functions such as Crosswind Assist, esp®, abs, five airbags or cruise control with limiter. In addition, there are lots of functions and features that make life in the city easier and more carefree, for example the Direct-Steer system with power assistance, Hill Start Assist or the instrument cluster with trip computer. Further features already on board include intelligent stowage space solutions like the twin-section tailgate or the passenger seat with through-loading function. So if you're looking for an uncomplicated way of getting around, why not take a seat behind the wheel and find out how easy getting around in the city can be? Experience the smart fortwo in its purest form.

Interior

- > Dashboard and door centre panels with a black grained finish and accent trim parts in white
- > Fabric upholstery (black)
- > Steering wheel in 3-spoke design
- > Direct-Steer system
- > Instrument cluster with monochrome display in LCD technology and trip computer
- > Grained shift lever knob (black)
- > Centre console with double cup holder
- > Single electric window
- > Inside door opener, grained (black)
- > Glove compartment, open
- > Interior lighting
- > Passenger seat with through-loading function

Exterior

- > tridion safety cell in black
- > bodypanels in solid colour black, white or red
- > 38.1 cm (15-inch) steel wheels with wheel caps with front tyres: 165/65 R 15; rear tyres: 185/60 R 15
- > H4 halogen headlamps with integrated LED daytime driving lights

Special fortwo features

- > Full roof with fabric cover in black

Special fortwo cabrio features

- > tritop fabric soft top in black, electrically operated with heated glass rear windscreen and roof liner in grey
- > Removable roof bars in tridion colour
- > Stowage compartment for roof bars in tailgate

>> passion.

Confident, extravagant, modern. The smart fortwo passion is the right choice for everyone who enjoys showing off their style. The tridion safety cell comes in black as standard and the 38.1 cm (15-inch) 8-spoke alloy wheels painted in silver emphasise the character of this equipment line

The interior of the smart fortwo passion is available in three colour variants that accentuate the extravagant character of this variant: black/orange, black/white and black/black.

> Dashboard and door centre panels in orange fabric, accent trim parts in black/grey and seats with black/orange fabric upholstery

Or:

> Dashboard and door centre panels in black fabric, accent trim parts in white and seats with black/white fabric upholstery

Or:

> Dashboard and door centre panels in black fabric, accent trim parts in black/grey and seats with black/black fabric upholstery

> 3-spoke multifunction steering wheel in leather
 > Instrument cluster with colour 8.9 cm (3.5-inch) TFT display
 > Shift lever knob in leather
 > Centre console with drawer
 > Two electric windows with convenience opening and closing and obstruction sensor
 > Vanity mirror in sun visor for driver and passenger
 > Reading light for driver and passenger

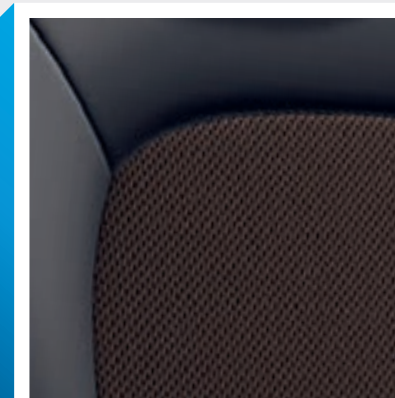

>> perfect.

Sporty, elegant. The smart fortwo perfect looks just as good on the car park in front of the gym as it does in front of a top restaurant. The tridion safety cell in black in conjunction with the sporty 38.1 cm (15-inch) 4-spoke alloy wheels painted in black with a high-sheen finish give the car a strikingly powerful and elegant look.

The interior of the smart fortwo perfect is finished in a stylish black, brown and grey colour scheme.

- > Dashboard and door centre panels in brown fabric, and accent trim parts in high-gloss black, air vents in grey, and seats with black/brown upholstery in leather look/fabric
- > 3-spoke multifunction steering wheel in leather
- > Instrument cluster with colour 8.9 cm (3.5-inch) TFT display
- > Shift lever knob in leather
- > Centre console with drawer
- > Two electric windows with convenience opening and closing and obstruction sensor
- > Vanity mirror in sun visor for driver and passenger
- > Reading light for driver and passenger

>> prime.

Stylish, timeless, chic. The smart fortwo prime boasts high-quality equipment and a timelessly elegant exterior. The tridion safety cell in black and the 38.1 cm (15-inch) 5-twin-spoke alloy wheels with a high-shine black finish are defining features of the classic look of the exterior.

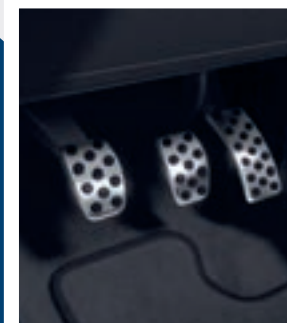

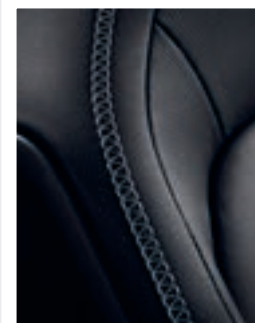

Exclusive and timeless: the interior of the smart fortwo prime greets you with elegant leather seats.

- > Dashboard and door centre panels in black fabric, accent trim parts in black/grey and seats in black leather upholstery with grey topstitching
- > Heated seats for driver and front passenger
- > 3-spoke multifunction steering wheel in leather
- > Instrument cluster with colour 8.9 cm (3.5-inch) TFT display
- > Shift lever knob in leather
- > Centre console with drawer
- > Two electric windows with convenience opening and closing and obstruction sensor
- > Vanity mirror in sun visor for driver and passenger
- > Reading light for driver and passenger

>> BRABUS Style.

Sporty and exclusive. That certain special something is sometimes difficult to define. Not so with smart fortwo BRABUS Style. Front spoiler, rear diffuser and a 10 mm lower sports suspension make for an emphatically sporty get-up, while fine materials and an appealing look inside provide for exclusive comfort.

Exterior

- > BRABUS sports suspension, lowering the car by 10 mm
- > 40.6 cm/43.2 cm (16-/17-inch) BRABUS Monoblock IX alloy wheels painted in matt grey, with 185/50 R 16 front tyres and 205/40 R 17 rear tyres (R89)
- > 40.6 cm/43.2 cm (16-/17-inch) BRABUS Monoblock IX alloy wheels in grey, high-sheen with a matt painted finish, with 185/50 R 16 front tyres and 205/40 R 17 rear tyres (R80)¹
- > BRABUS rear apron in the body colour with rear diffuser in matt grey
- > BRABUS front spoiler in the body colour
- > BRABUS Style lettering in mirror triangle

Interior

- > BRABUS dashboard in black leather look/fabric
- > BRABUS 3-spoke multifunction sports steering wheel in nappa leather with steering wheel bezel in anthracite and specific topstitching in grey
- > Shift paddles on the steering wheel²
- > BRABUS sports seats with upholstery in perforated nappa leather/black leather with specific topstitching in grey
- > BRABUS shift lever knob in leather
- > BRABUS hand-brake lever in leather
- > Sports pedals in brushed stainless steel with rubber studs
- > Panoramic roof³

The pictures on this double page show options in some cases. ¹Optionally available. ²Only available in conjunction with twinamic. ³Not available for fortwo cabrio.

>> For more possibilities in the city.

The optional equipment packages Sleek Style package and Urban Style package fit out your smart with larger, sporty alloy wheels and a sports suspension which lowers the vehicle. Inside, the multifunction sports steering wheel and the sports pedals additionally provide for a dynamic look. The 8-Y-spoke alloy wheels define the character of the Sleek Style package. The Urban Style package is distinguished from the Sleek Style package by the combination of black wheel arch liners with smart lettering and 5-twin-spoke alloy wheels. If you're looking for something a touch fancier, no problem: you can optionally embellish these packages with 40.6 cm (16-inch) BRABUS Monoblock VIII alloy wheels in two variants.

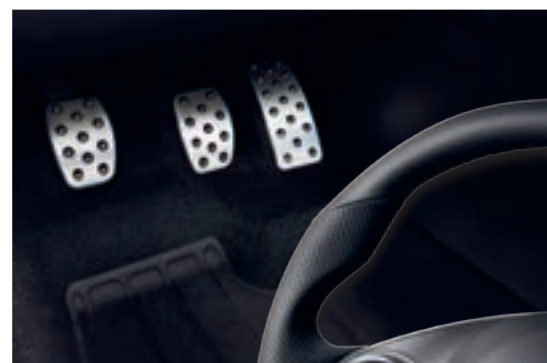

The 40.6 cm (16-inch) BRABUS Monoblock VIII alloy wheels (R84, R97) are optionally available for both the Sleek Style package and the Urban Style package.

Sleek Style package.¹

Not just for a sporty look outside your gym – this package turns your smart fortwo into a sporty city runaround. For an all-round dynamic look, outside as well as in.

- > 40.6 cm (16-inch) 8-Y-spoke alloy wheels painted in black, with 185/50 R 16 front tyres and 205/45 R 16 rear tyres (R95, also optionally available with R84, R91, R97 alloy wheels)
- > Sports suspension lowering the vehicle by 10 mm
- > Exhaust system with chrome-plated tailpipe trim
- > Multifunction leather sports steering wheel in 3-spoke design with grey topstitching (in conjunction with twinamic 6-speed dual clutch transmission incl. shift paddles on the steering wheel)
- > Brushed stainless steel sports pedal covers with rubber studs

Urban Style package.²

In addition to the basic sporty set-up provided by the Sleek Style package (sports suspension, tailpipe trim, multifunction steering wheel, sports pedals), the Urban Style package features dynamic wheel arch liners and elegant two-tone 5-twin-spoke alloy wheels.

- > 40.6 cm (16-inch) 5-twin-spoke alloy wheels, painted in black and featuring a high-shine finish, with 185/50 R 16 front tyres and 205/45 R 16 rear tyres (R91, also optionally available with R84, R95, R97 alloy wheels)
- > Wheel house liners in black with smart lettering

¹ Not in conjunction with BRABUS Style or Urban Style package. ² Not in conjunction with BRABUS Style or Sleek Style package.

Comfort package.

Make yourself comfortable — in more respects than one. The height-adjustable driver's seat and the height-adjustable steering wheel included in the Comfort package can be perfectly adjusted to your height.

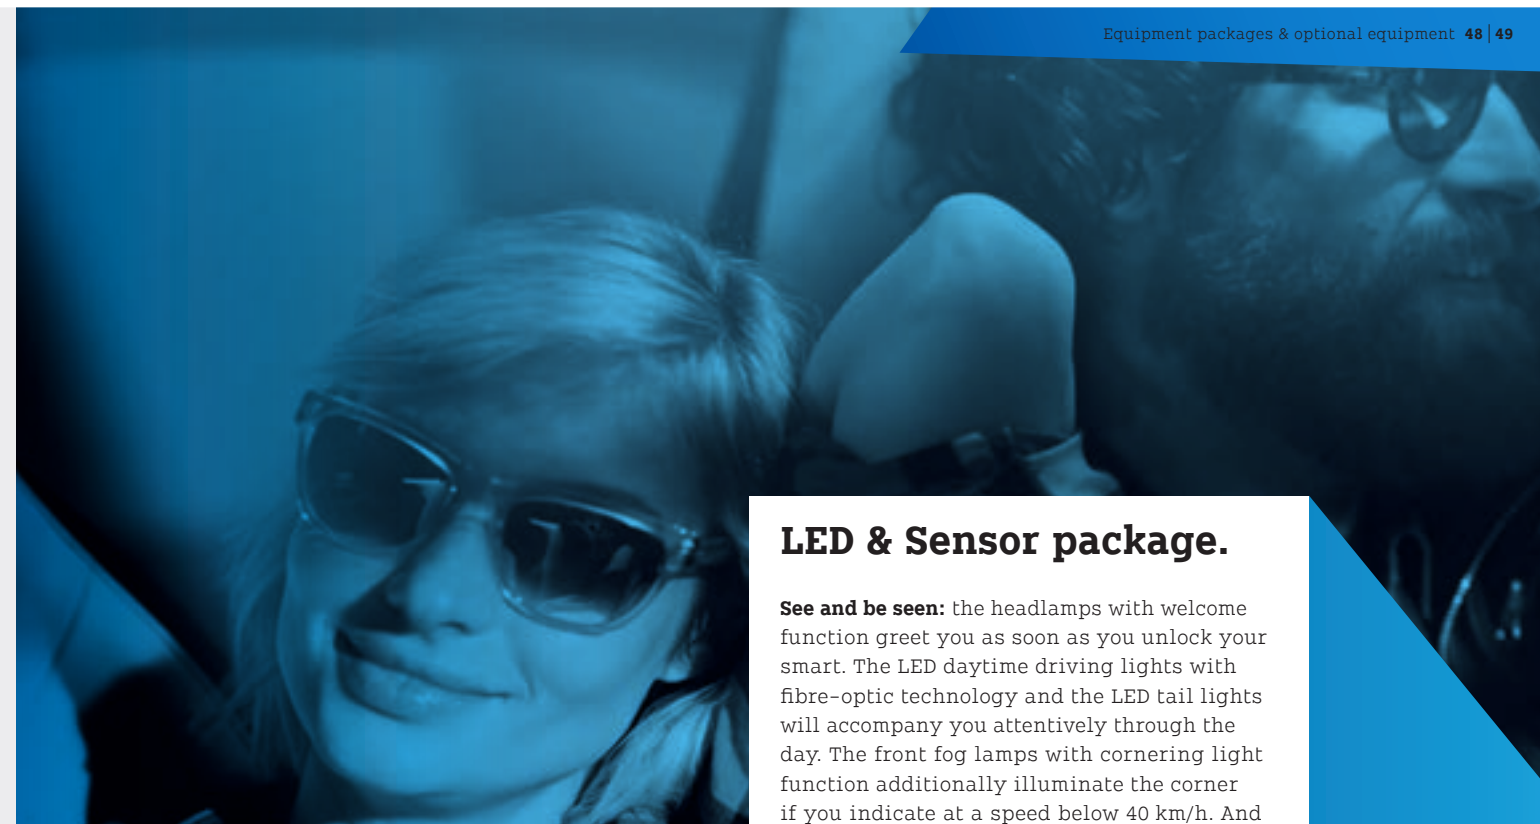

- > Height-adjustable driver's seat
- > Backrest adjustment with one-touch function for driver and front passenger
- > Height-adjustable steering column
- > Electrically adjustable and heated door mirrors
- > Belt guide on driver's seat

Stowage Space package.

Making space: the Stowage Space package allows you to put your belongings away quickly, safely and tidily in the glove compartment or stowage net, or on the passenger seat.

- > Glove compartment, lockable
- > Stowage net on centre console in passenger footwell
- > Retaining strap for securing items on the front passenger seat

LED & Sensor package.

See and be seen: the headlamps with welcome function greet you as soon as you unlock your smart. The LED daytime driving lights with fibre-optic technology and the LED tail lights will accompany you attentively through the day. The front fog lamps with cornering light function additionally illuminate the corner if you indicate at a speed below 40 km/h. And should it rain or get dark, the ever-vigilant rain and light sensor is on board.

- > H4 halogen headlamps with welcome function, integrated daytime driving lights with LED fibre-optic technology
- > LED tail lamps
- > Front fog lamps with cornering light
- > Rain/light sensor

Cool & Media package.

Good and simple: the generously proportioned 17.8 cm (7-inch) multi-touch display not only looks good, but is also very easy and intuitive to use. The automatic climate control system also makes life easy for you: simply set the desired temperature using the slider switch, and that's it.

- > smart Media-System with 17.8 cm (7-inch) multi-touch display, AUX/USB/SD interface in centre console, voice control, Bluetooth® interface with hands-free system, audio streaming for music transfer, MirrorLink^{®1}, Android Auto², smartphone voice-operated control, navigation system with maps for the whole of Europe and TomTom LIVE services included for 3 years³
- > Automatic climate control with automatic temperature control and combined filter with activated charcoal

Cool & Audio package.

Music to your ears! Play your favourite music via USB stick or MP3 player, or simply stream your audio files via Bluetooth®. Always at a pleasant temperature.

- > smart Audio-System with AUX/USB interface, Bluetooth® interface with hands-free system, smartphone voice control and audio streaming for music transfer
- > Automatic climate control with automatic temperature control and combined filter with activated charcoal

The JBL sound system.

The JBL sound system* incl. 6-channel DSP amplifier with a total power output of 240 W turns your smart into a small concert hall. Seven high-performance speakers surround you with crystal-clear sound from all sides. A subwoofer in the boot additionally provides for a full bass sound – the subwoofer is simple to remove, if necessary.

¹Information on compatible smartphones and apps at MirrorLink.com. ²Information on compatible smartphones is available at android.com/auto. ³3 years inclusive, individually extendable thereafter. *fortwo cabrio: 5-channel DSP amplifier with a total output of 200 W and 6 high-performance speakers.

>> For more comfort in the interior.

Optional equipment for the interior: decide for yourself whether you would like the interior of your smart fortwo to be more comfortable, attractive or practical.

¹For passion, perfect, prime and BRABUS Style only in conjunction with Stowage Space package. Available as optional extra with standard equipment specification.
²Optionally available in conjunction with standard equipment.

- 1 Ambient lighting with indirect illumination of doors, footwells for driver and front passenger, glove compartment and centre console
- 2 Folding centre armrest at front
- 3 Glove compartment, lockable¹
- 4 Wind deflector (cabrio)
- 5 Stowage compartment in tailgate²
- 6 Load compartment cover (retractable) with net pockets on the front and rear
- 7 Boot tub, shallow
- 8 Door sills, set of 2
- 9 Velour floor mats, black
- 10 Heated seats for driver and passenger
- 11 Automatically dimming rear-view mirror
- 12 Panoramic roof with integrated sunblind

Optional equipment for more safety:
for even more relaxed driving.

- > Active Brake Assist¹
- > Lane Keeping Assist with visual and acoustic warning
- > Rear parking aid
- > Reversing camera
- > Anti-theft alarm system monitoring the doors and service cover
- > Breakdown kit with air compressor and sealant
- > Front fog lamps
- > Warning triangle
- > First aid kit

>> For more safety & functionality.

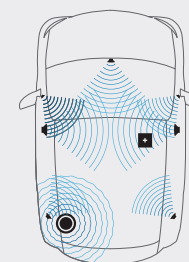

¹In conjunction with BRABUS Style only available with front fog lamps or LED & Sensor package.

>> For more fun & connectivity.

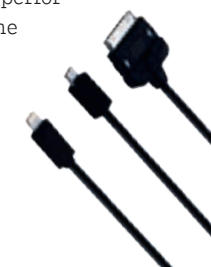

Optional equipment for infotainment, navigation & communication: had enough of listening to the radio? Then listen to your own music on the road – for example with eight high-performance loudspeakers incl. subwoofer.

- > Smartphone charging cable kit for micro USB and Apple® Lightning
- > smart Audio-System with connection for MP3 player and USB, music streaming and hands-free system via Bluetooth® and smartphone voice control
- > Digital radio for DAB, DAB+ and DMB standards
- > JBL sound system incl. 6-channel DSP amplifier with a total power output of 240 W in conjunction with 8 high-performance speakers (fortwo), 5-channel DSP amplifier with a total power output of 200 W and 6 high-performance speakers (fortwo cabrio), including removable subwoofer in the luggage compartment

It's not just the name that sounds good: the JBL sound system for the smart fortwo surrounds you with top-quality sound.

>> For more personal charisma.

Is boundless individuality what you're after? Tailor the look of your smart to your own personal style – with alloy wheels from sporty to elegant or the multi-part decal kit.

38.1 cm (15-inch) 4-spoke alloy wheels (R32), painted in black with a high-sheen finish, with 165/65 R 15 front tyres and 185/60 R 15 rear tyres

38.1 cm (15-inch) 5-twin-spoke alloy wheels (R87), painted in black with a high-sheen finish, with 165/65 R 15 front tyres and 185/60 R 15 rear tyres

38.1 cm (15-inch) 8-spoke alloy wheels (R88), painted in silver, with 165/65 R 15 front tyres and 185/60 R 15 rear tyres

40.6 cm (16-inch)¹ alloy wheels (R91) in 5-twin-spoke design, painted in black and featuring a high-sheen finish, with 185/50 R 16 front tyres and 205/45 R 16 rear tyres

40.6 cm (16-inch)¹ alloy wheels (R95) in 8-Y-spoke design, painted in black, with 185/50 R 16 front tyres and 205/45 R 16 rear tyres

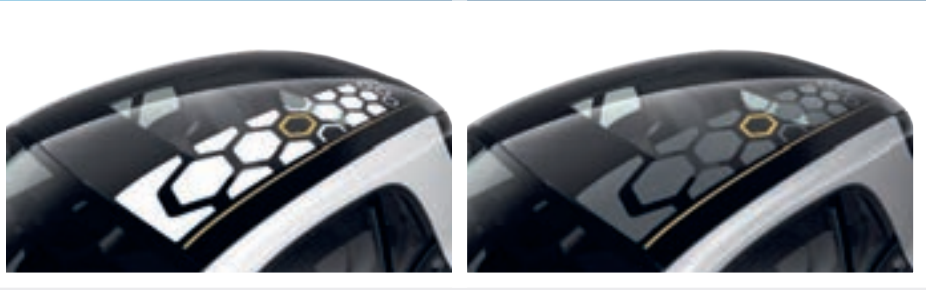

40.6 cm (16-inch)¹ BRABUS Monoblock VIII alloy wheels (R97) painted in anthracite, high-sheen, matt finish, with 185/50 R 16 front tyres and 205/45 R 16 rear tyres

40.6 cm (16-inch)¹ BRABUS Monoblock VIII alloy wheels (R84) in silver, high-sheen finish, with 185/50 R 16 front tyres and 205/45 R 16 rear tyres

40.6 cm/43.2 cm (16-/17-inch) BRABUS Monoblock IX alloy wheels (R89)² painted in matt grey, with 185/50 R 16 front tyres and 205/40 R 17 rear tyres

Decal kit²
The multi-part decal set in grey/yellow or white/yellow for the roof, sides and front continues your smart's design idiom in dynamic guise. The number on the bonnet is also a statement, indicating the vehicle's length.

40.6 cm/43.2 cm (16-/17-inch) BRABUS Monoblock IX alloy wheels (R80)³ painted in grey, high-sheen with a matt painted finish, with 185/50 R 16 front tyres and 205/40 R 17 rear tyres

¹Only in conjunction with Urban Style package or Sleek Style package; also combinable as an option. See price list for details. ²Only in conjunction with panoramic roof, not in conjunction with fortwo cabrio. ³Only in conjunction with BRABUS Style.

>> For more peace of mind: service & road assistance.

To ensure that you enjoy your smart for as long as possible after buying it, we recommend customised service from your smart service partner. Our experts know the workings of your smart inside out. Try out our excellent service for yourself.

smart service contracts

For carefree and reliable motoring in your new car: choose the smart way to avoid additional garage costs, as unforeseen repairs, maintenance or wearing parts are already covered, depending on the service contract you select. And that pays off with optimum vehicle safety, a vehicle in tip-top condition and long retention of value. Depending on your requirements and your budget you can choose between:

- > Extended Warranty with the Advance service contract
- > Maintenance package with the Compact service contract
- > Maintenance and wear package with the Compact Plus service contract
- > All-inclusive carefree package with the Excellent service contract.

smart road assistance

The free smart road assistance insurance package is included when you buy your new smart and it can be renewed every time you have your vehicle serviced by an authorised service partner.

Benefit from immediate expert assistance almost anywhere in Europe in the event of a breakdown, an accident, vandalism or little mishaps. If necessary, your vehicle will be towed to the next authorised smart service partner. And to ensure that you stay mobile we will provide you with a replacement vehicle. Alternatively, you can continue your journey by taxi, train or plane – including any costs for over-night accommodation.

24h service

It's good to know that smart is there for you almost everywhere in Europe, 365 days a year. Should you ever need assistance, you can contact our Customer Assistance Center at any time on the toll-free number: 00800 2 77 77 77 7¹.

¹Calls from mobile telephones may be subject to a charge depending on the service provider.

>> For more flexibility: financial services.

With a smart you always stay flexible – also when it comes to financing. Our leasing, financing and insurance products are designed to get you behind the wheel of your smart in no time at all. On attractive terms that can be tailored to your needs. Your smart dealer will be pleased to advise you.

Financing

Would you like to finance your smart with instalments tailored to your needs? No problem. Speak to your smart dealer about the options that smart is able to offer you in cooperation with the Mercedes-Benz Financial Services. You can also enjoy great flexibility when it comes to financing – right up to the question of whether you choose to keep your smart at the end of the term or exchange it for a new one.

Leasing

Always drive a new car whilst remaining financially flexible – leasing a smart is a good idea. You only pay for the use of the vehicle and so benefit from low monthly instalments. We will be pleased to inform you about our products that not only give you financial flexibility but also full peace of mind with a wide range of insurance cover.

¹Information on rated output and rated torque in accordance with directive 80/1269/EEC in the currently applicable version. ²Electronically limited. ³The figures stated were determined according to the prescribed measuring process, in this case the "NEDC CO₂ figures" in accordance with Art. 2 no.1 of Implementing Regulation (EU) 2017/1153. The fuel consumption figures were calculated on the basis of these figures. The figures will vary according to the optional features selected. ⁴In accordance with the German fuel efficiency labelling ordinance for passenger cars (PKW–EnVKV), Section 3a. The data do not relate to an individual vehicle and do not form part of an offer, but are intended solely for the purpose of comparison between the different

types of vehicle. ⁵Measured from kerb to kerb. ⁶Figures in accordance with Directive 92/21/EC in the version 95/48/EC (mass in running order, fuel tank 90% full, with driver, 68 kg, and luggage, 7 kg, for vehicles with standard equipment. Optional equipment and accessories generally increase this figure and reduce the payload accordingly). ⁷Up to roof; in accordance with DIN 70020–1. ⁸Whichever occurs first. Indicated by maintenance interval indicator. An oil service plus is to be carried out every 20,000 km or once a year. ⁹Subject to compliance with servicing requirement. See price list for further details.

Driving fun without additional workshop costs.
Your smart service partner will be pleased to advise you.

We are pleased to take back your smart for environmentally friendly disposal in accordance with the European Union* (EU) Directive on End-of-Life Vehicles – but that day lies a long way off (*does not apply to Switzerland). To make it as easy as possible for you to return the vehicle, a network of companies exists which will take back your old car and dismantle and recycle it. You can return your vehicle to one of these companies free of charge. In this way you make a valuable contribution to closing the recycling loop and to saving resources. Further information on recycling end-of-life vehicles and the conditions of return is available at www.smart.com.

Regarding the information in this publication: changes to the product may have been made after going to press on 31.07.2018. The manufacturer reserves the right to effect structural or design modifications, colour changes and changes to the scope of delivery during the delivery period, insofar as such changes or modifications are reasonable for the buyer in due consideration of the seller's interests. Should the seller or the manufacturer employ codes or numbers to describe the order or object ordered, this alone shall not constitute a valid basis for the derivation of any rights. The photographs may include accessories or options that are not part of the standard scope of delivery. Any colour deviations result from the printing process. This publication may also contain variants and services that are not available in individual countries. Information on statutory, legal and fiscal provisions and their consequences apply only to the Federal Republic of Germany at the time that this publication goes to press.
