

smart

forfour

» The smart among the fourseaters.

For ideas, answers, fun & functions

smart has revolutionised urban mobility. With clever solutions and unique ideas that make getting around in the city a pleasure once more. A pleasure that isn't marred by a shortage of parking spaces and dense traffic. And that is particularly satisfying when others have long since had to admit defeat.

This smart feeling is now available for four people – and that's not the only surprise. The smart forfour is a surprising car in many respects with a whole host of intelligent answers and innovations that make it unmistakably a true smart.

For one, two, three, four

» Welcome to the smart among the fourseaters –
the smart forfour.

» **The city is full of possibilities.** And it's great when four of you have the chance to enjoy all that the city has to offer. The smart forfour combines an innovative car concept with all the advantages of a four-seater vehicle. It is this that makes it the most unusual representative of its class. Thanks to its compactness and agility it is the perfect four-seater car for the city. And with plenty of cargo volume and space for four adults the smart forfour is ready for everything that life holds in store.

For
look
at

that,

that

& that

that,

» **A smart at first glance.** But for four people. The smart forfour carries the revolutionary aspects of the smart brand in its genes – and proudly displays them. It boasts a wholly unique design that makes it stand out in city traffic.

» For looking great, outside, inside and around.

The face of the smart forfour welcomes you with a smile: the radiator featuring a honeycomb structure with the integrated smart logo defines the striking look of the front. And halogen headlamps with a clear-lens design give the smart forfour a self-assured look by day and night. On request, elegantly curved, integrated daytime driving lights with LED fibre optics and a welcome function will accompany you throughout the day.

The rear is dominated by the large bi-colour lights – with LED segments if you opt for the optional LED & Sensor package. Integrated in the tridion safety cell, the tail lights give the design a premium look and lend the rear end its own distinctive character, too.

The dynamic coupé line and the two-colour combination of tridion safety cell and body colour are real eye-catchers in city traffic. And thanks to the long wheelbase and the extremely short overhangs the smart forfour has a particularly compact road stance. A true smart that is sure to cause a stir on the streets of the city. To ensure that its passengers keep a cool head, the smart forfour is optionally available with heat-insulating tinted dark glass for the rear window and the rear side windows.

For
i see it,
i touch it,
i use it,
i love it

» **Like the** unusual exterior, the interior of the smart forfour also breaks with conventions. A consistent design and large fabric-covered surfaces with a high-quality feel lend it a distinctive character: modern, chic and harmonious.

At the rear you can choose between a continuous rear bench (right) or the optional readyspace seats (top) – which enable you to create even more stowage space in no time at all.

The integral seats are not only attractive; they also provide for a higher seating position. They offer good support and excellent seating comfort, regardless of whether you are just driving to work or heading off on a mini-break. The high air permeability of the materials ensures a pleasant seat climate.

The multifunction steering wheel in a 3-spoke design provides for a pleasant grip and enables operation of the trip computer, cruise control and radio volume. In addition, you can take calls via the voice control button. A well-conceived centre console adjoins it on the right. This is where the controls for the optional air conditioning are found together with a practical drawer for all your little everyday necessities.

The interior door trim demonstrates attention to detail: with a multi-colour look and a sophisticated combination of fabric and plastic it incorporates a large stowage compartment and has space for the front loudspeakers that are covered with a stylish honeycomb design.

» **For colours, shapes, ideas, solutions.**

A striking two-colour look in different combinations and the play of contrasts and materials such as fabric, leather and leather look create a harmonious overall impression in the whole interior. And ensure that you feel as comfortable as if you were at home.

The retaining strap for securing objects on the front passenger seat is a simple but extremely practical idea. It will keep your bag securely in its place, and the Velcro fastener ensures swift fitting and removal.

For run, run, run, run

» **Urban driving fun.** This is what smart has stood for from the very beginning. And it is why the smart forfour, too, has been consistently designed for the demands of city driving – right down to the last detail. Thanks to the rear engine and rear-wheel drive the smart forfour is not only extremely compact – with its manual transmission it also offers a whole lot of driving fun! The motors come with a start/stop system as a standard feature. And for extra driving fun the smart forfour is optionally available with twinamic automatic 6-speed dual clutch transmission.

>> For sporty, snappy, fuel-efficient, fun.

The **twinamic dual clutch transmission** offers various shifting options. These leave you to decide how you would prefer to move around the city. From fuel-efficient cruising to dynamic and sporty driving – it's up to you.

With the **shift paddles on the multifunction sports steering wheel¹** you have smooth gear changing at your fingertips. This works in both manual and automatic mode.

In **automatic mode** you can choose between the shift programmes “Comfort” (E) and “Dynamic” (S). In both programmes gear changing is fully automatic and without traction loss.

The automatic **“Comfort” (E) shift programme** shifts to the next gear at lower revs so you cruise comfortably and fuel-efficiently through the city.

The automatic **“Dynamic” (S) gearshift programme** has a higher shifting speed. This is the right programme for you if you like a sportier driving style with more dynamic acceleration.

In **manual mode** you change gears with the shift lever and so determine the shift points yourself.

twinamic 6-speed dual clutch transmission consists of two transmissions and two clutches. One transmission serves the odd gears and the other the even gears and reverse gear. Both transmissions are active whilst driving, but only one is ever connected to the engine. This means that for every gear the next highest or lowest gear is always “at the ready”. Gear shifting then simply takes place by switching the clutches – in a flash and without traction loss. This makes for much more efficient and sporty shifting than with a conventional transmission, regardless of whether you are driving in manual or automatic mode.

¹Shift paddles only in conjunction with BRABUS Style, Sleek Style package or Urban Style package.

» For cornering,
turning, circling,
reversing.

Agile city driving. To the farmer's market in the morning, the DIY store at midday, and with friends to the fairground in the evening. The smart forfour won't just bring you quickly to your destination, you'll also enjoy every minute behind the wheel on the way there. Its compact dimensions and the large wheel angle give it the smallest turning circle in its class (8.65 m measured from kerb to kerb). So if you've taken a wrong turn simply do a U-turn!

For in & out & in & out

» With a whole host of intelligent solutions the smart forfour is the perfect car for whatever you have planned – alone, or for two, three or four people. Or for whatever you don't have planned. Simply go with the flow of the city and take in everything you encounter on the way. And thanks to the wide-opening rear doors that can be opened up to 85°, getting in and out and loading and unloading are particularly convenient.

» For Lisa, Tom, Charlotte and BILLY.

The versatility of the smart forfour opens up lots of possibilities – from an outing to moving house, and it makes many things amazingly easy. Intelligent solutions such as very wide-opening rear doors, foldaway seat cushions or the cargo position¹ of the rear backrest easily create extra space in next to no time. With the smart forfour flexibility doesn't stop with the individually folding rear seats. On the contrary: in this discipline, too, the smart forfour is the smart among the fourseaters. And it surprises with unconventional ideas that enable you to master both the small and the big challenges of city life with ease.

The **85° rear doors** of the smart forfour can be opened almost at a right angle, making it much easier to load large or bulky items than with many other cars.

The **readyspace seats** are a particularly clever solution in terms of space economy and are optionally available in place of the rear seat bench. It is a simple matter to swivel the seat cushions individually to the footwell – a quick and easy way to create more height for larger items. In conjunction with the cargo box – the removable stowage compartment – this solution offers you maximum stowage space flexibility. And if you need a level cargo area simply fold down the seat backrests. Alternatively, you can put them in the cargo position, an upright position that increases the luggage compartment capacity.

¹Only in conjunction with readyspace seats.

>> For spontaneous days and nights.

The smart forfour also offers ample **stowage space** when you have a rear passenger. This is because the backrests of the equipment lines can be folded down separately so that there is enough space for everything you need to spend an exciting day with friends. Or an exciting night.

>> For everything and everyone.

There's ample space for two adults on the rear seats. So simply pack in your friends and look forward to your city adventure together. Theatre, cinema, concert or sport – it's all more fun when there are four of you, isn't it?

>> For little moves and big shops.

When the seats for the front passenger and rear passengers are folded down and you are driving alone, you can make use of the full stowage space in the smart forfour. Thanks to the folding passenger seat backrest you can transport objects up to 2.22 m in length. For example, a standard lamp fits easily into the smart forfour.

>> For pink and pale blue.

With the i-Size child seat attachment system as a standard feature, **child seats** can be easily and safely secured on the rear bench of the smart forfour. And thanks to the 85° rear doors it is particularly easy to seat small children in the smart forfour. Even if they're sleeping soundly.

» For gaps, lots, spaces and places.

Parking in cities isn't always a piece of cake. But with the new smart forfour, you can make the most of even the smallest parking space. Thanks to its rear-mounted engine this exceedingly compact four-seater car is just 3.49 m long, enabling it to fit in parking spaces that other drivers have to reject on sight.

The reversing camera (only available in conjunction with the Cool & Media package) provides you with optimum support when reversing or parking and is elegantly integrated in the brand logo on the tailgate. As soon as you engage reverse gear the image of the reversing camera is shown on the large multi-touch display of the smart Media-System. Dynamic guide lines assist you with your driving manoeuvres.

The rear parking aid (available as an option) gives you an acoustic signal when you get too close to the vehicle behind you during parking. Of course, you can continue to rely on your intuition – but it's best to be safe, isn't it?

>> For innovation, information, intonation and application.

The perfect connection between your smartphone and your smart: enjoy more freedom when driving and let your two mobile companions become one. You can conveniently pair the smart Audio-System¹ with your smartphone via Bluetooth® and USB. And you can additionally connect the smart Media-System² with the aid of the Android Auto app³. Both variants have one thing in common: thanks to the push-to-talk button and intelligent voice command function, you will have everything under control during the journey – above all, your steering wheel.

Voice control at the touch of a button – with push to talk: once your smartphone is connected with your smart there is not much else to do – but there's plenty you can say. Whether Siri, Google Now, Cortana or Samsung S Voice is your preferred assistant, just pressing the push-to-talk button on the right of your multifunction steering wheel will activate voice control and make your wish their command. During the journey you can navigate to a new destination using Google Maps, send or listen to a text message, request your favourite song from a playlist and do – or ask for – much more.

For Android, for your car, for everything. With the Android Auto app³ your Android smartphone and the smart Media-System merge to become the perfect team. Once connected via USB and Bluetooth® you have full access to music, navigation and communication functions. This is because the app gives you access to your smartphone's functions from your smart Media-System. That is just as straightforward as it sounds, and the interface is easy to use, too. The simplified way of displaying your smartphone apps makes operation using the buttons on the smart Media-System and steering wheel particularly intuitive and safe. Connection via the MirrorLink® app⁴ is similar – and equally simple.

For being safe, secure, steady & sure

» **Maximum safety in a compact space.** The tridion safety cell and state-of-the-art systems for active and passive vehicle safety ensure maximum occupant protection. So not only will you have lots of fun behind the wheel, you can relax safe in the knowledge that you are in good hands.

» For safety, stability, compactness and reliability.

The **tridion safety cell** is the heart of the smart safety concept. Additionally reinforced with high-strength steel sheets at strategically important points, it offers maximum stability, rigidity and strength. The impact energy is distributed evenly over the longitudinal and transverse members and thus reduced effectively.

>> For sense, see, react, relax.

The smart forfour is equipped with a whole host of state-of-the-art safety systems, for example the optional Active Brake Assist, an innovative technology familiar from higher vehicle classes. Further features include five airbags, belt tensioners on the rear seats as well, abs, esp® and Crosswind Assist as a standard feature. In addition, Lane Keeping Assist is available as an option.

Airbags

Five airbags protect the occupants of the smart forfour should the worst come to the worst: driver and passenger airbags, head/thorax bags for driver and passenger and a kneebag for the driver.

Lane Keeping Assist

The optional Lane Keeping Assist is activated at a speed of 70 km/h. It monitors the road ahead of you with a camera and warns you with an acoustic and a visual signal in the instrument cluster if you leave your lane.

Crosswind Assist

Sudden gusts of wind can lead to tricky situations, especially if you are driving fast. Crosswind Assist, a standard feature, detects deviations from straight-line stability and specifically brakes individual wheels so that you do not have to counter-steer as strongly.

Active Brake Assist¹

From a speed of 30 km/h the optional Active Brake Assist emits a warning sound to alert the driver's attention to the risk of a collision with a vehicle driving ahead detected using radar technology. Should the driver neither brake nor take evasive action despite the warning signal, the car autonomously initiates light braking. If the driver reacts by braking, additional braking assistance is provided in this dangerous situation. Active Brake Assist can therefore help to prevent accidents with vehicles ahead or to reduce the severity of any accident.

¹In conjunction with BRABUS Style, only available with front fog lamps or LED & Sensor package.

For him & her & him & you

» **The city is full of characters.** And there's a smart forfour to suit each and every one of them. On top of the standard equipment, you can opt for one of three individual equipment lines for the smart forfour that are just like life in the city itself: multi-faceted, modern and innovative. Choose your favourite and add optional equipment packages and further options as you wish for more design, comfort and functionality.

»» Standard equipment.

Even the standard version of the smart forfour is packed full of ideas that set the intelligent four-seater apart from other cars and impressive safety features such as crosswind assist and cruise control with limiter. In addition, there are comfortable and convenient solutions that make everyday driving even more carefree. So if you're looking for an uncomplicated way of getting around, why not take a seat behind the wheel and find out how practical and how much fun a compact four-seater can be?

Equipment and features.

Exterior

- > Solid roof in the tridion colour
- > tridion safety cell in black
- > Body in solid colour black or white
- > 38.1 cm (15-inch) steel wheels with wheel caps
- > 85° rear doors
- > Side windows at rear manually operated
- > H4 halogen headlamps with integrated LED daytime driving lights

Interior/technical features

- > Dashboard and door centre panels grained (black) and accent trim parts in white
- > Upholstery in black fabric
- > Steering wheel in 3-spoke design
- > Instrument cluster with monochrome display in LCD technology and trip computer
- > Cruise control with limiter (variable speed limitation)
- > Grained shift lever knob (black)
- > Centre console with double cup holder at front, cup holder at rear
- > Electric windows
- > Glove compartment, open
- > Passenger seat with through-loading function (fully folding backrest)
- > Rear bench seat, undivided, with folding backrests

>> passion.

Confident, extravagant, modern. On the exterior the silver 38.1 cm (15-inch) alloy wheels in an 8-spoke design immediately catch the eye. And a look through the windows to the interior that is available in three colour variants shows that the smart forfour has a whole lot of confidence.

Equipment and features.

Exterior

- > Solid roof in the tridion colour
- > tridion safety cell in black
- > Door mirror caps in the tridion colour¹ and radiator trim in black

Interior

- > 3-spoke multifunction steering wheel in leather
- > Instrument cluster with colour 8.9 cm (3.5-inch) TFT display
- > Leather shift lever knob
- > Centre console with drawer and double cup holder
- > Electric windows with convenience control and obstruction sensor
- > Luggage compartment lighting
- > 50/50-split folding rear seat backrests
- > Ruffled pocket on driver and front passenger backrests
- > Dashboard and door centre panels in orange fabric, accent trim parts in black/grey and seats with black/orange fabric upholstery and orange topstitching
- > **Or:**
Dashboard and door centre panels in black fabric, accent trim parts in white and seats with black/white fabric upholstery with white topstitching
- > **Or:**
Dashboard and door centre panels in black fabric, accent trim parts in black/grey and seat upholstery in black fabric with grey topstitching

» perfect.

Sporty and elegant. The smart forfour perfect looks just as good parked outside the gym as it does in front of a star-rated restaurant. The tridion safety cell in black in conjunction with the sporty 38.1 cm (15-inch) bicolour alloy wheels appear both powerful and tasteful at first glance. Inside a perfectly coordinated colour combination in black, brown and grey awaits you plus attractive details such as the shift lever knob in leather.

Equipment and features.

» BRABUS Style.

Sporty and exclusive. That certain special something is sometimes difficult to define. Not so with smart forfour BRABUS Style. Front spoiler, rear diffusor and a 10 mm lower sports suspension make for an emphatically sporty get-up, while fine materials and an appealing look inside provide for exclusive comfort.

Exterior

- > BRABUS sports suspension, lowering the car by 10 mm
- > 43.2 cm (17-inch) BRABUS Monoblock IX alloy wheels painted matt grey, with 185/45 R 17 front tyres, 205/40 R 17 rear tyres (R90)
- > 43.2 cm (17-inch) BRABUS Monoblock IX alloy wheels in grey, high-sheen and with a matt finish, with 185/45 R 17 front tyres, 205/40 R 17 rear tyres (R81)¹
- > BRABUS rear apron in the body colour with rear diffuser in matt grey
- > BRABUS front spoiler in the body colour
- > BRABUS Style lettering in the B-pillar

Interior

- > BRABUS dashboard in black leather look/fabric
- > BRABUS 3-spoke multifunction sports steering wheel in nappa leather with steering wheel bezel in anthracite and specific topstitching in grey
- > Shift paddles on the steering wheel²
- > BRABUS sports seats with upholstery in perforated nappa leather/black leather with specific topstitching in grey
- > BRABUS shift lever knob in leather
- > BRABUS hand-brake lever in leather
- > Sports pedals in brushed stainless steel with rubber studs
- > Panoramic roof

» For more possibilities.

The optional equipment packages Sleek Style package and Urban Style package fit out your smart with larger, sporty alloy wheels and a sports suspension which lowers the vehicle. Inside, the multifunction sports steering wheel and the sports pedals additionally provide for a dynamic look. The 8-Y-spoke alloy wheels define the character of the Sleek Style package. The Urban Style package is distinguished from the Sleek Style package by the combination of black wheel arch liners with smart lettering and 5-twin-spoke alloy wheels.

¹ Not in conjunction with BRABUS Style or Urban Style package. ² Not in conjunction with BRABUS Style or Sleek Style package.

Sleek Style package.¹

Not just for a sporty look outside your gym – this package turns your smart forfour into a sporty city runaround. For an all-round dynamic look, outside as well as in.

- > 40.6 cm (16-inch) 8-Y-spoke alloy wheels painted in black, with 185/50 R 16 front tyres and 205/45 R 16 rear tyres (R95)
- > Sports suspension lowering the vehicle by 10 mm
- > Exhaust system with chrome-plated tailpipe trim
- > Multifunction leather sports steering wheel in 3-spoke design with grey topstitching (in conjunction with twinamic 6-speed dual clutch transmission incl. shift paddles on the steering wheel)
- > Brushed stainless steel sports pedals with rubber studs

Urban Style package.²

In addition to the basic sporty set-up provided by the Sleek Style package (sports suspension, tailpipe trim, multifunction steering wheel, sports pedals), the Urban Style package features dynamic wheel arch liners and elegant two-tone 5-twin-spoke alloy wheels.

- > 40.6 cm (16-inch) alloy wheels in 5-twin-spoke design, painted black and featuring a high-sheen finish, 185/50 R 16 front tyres and 205/45 R 16 rear tyres (R91)
- > Wheel arch liners in black with smart lettering

Sleek Style package (R95)

Urban Style package (R91)

Cool & Media package.

A package with entertainment value: 17.8 cm (7-inch) multi-touch display, voice control, navigation system and various connection possibilities for mobile devices such as smartphones, SD card or USB stick. Pretty cool as well: the automatic air conditioning.

- › smart Media-System with 17.8 cm (7-inch) multi-touch display, AUX/USB/SD interface in centre console, voice control, Bluetooth® interface with hands-free system, audio streaming for music transfer, MirrorLink®¹, Android Auto², smartphone voice control, navigation system with maps for the whole of Europe including 3 years of TomTom LIVE services³
- › Automatic climate control with automatic temperature control and combined filter with activated charcoal

Cool & Audio package.

Music, please! Play your favourite music via USB stick or MP3 player or stream your audio files via Bluetooth®. With a pleasant temperature at all times.

- › smart Audio-system with AUX/USB interface, Bluetooth® interface with hands-free system, smartphone voice control, audio streaming for music transfer and to connect with the smart cross connect app (available separately in the App Store for iOS and Android⁵)
- › Automatic climate control with automatic temperature control and combined filter with activated charcoal

The JBL sound system⁴ incl. 8-channel DSP amplifier with total power output of 320 W turns your smart forfour into a little concert hall. Eleven high-performance loudspeakers surround you with crystal-clear sound from all sides. In addition, the subwoofer in the luggage compartment delivers powerful bass. The subwoofer is simple to remove if required.

¹Information on compatible smartphones and apps at MirrorLink.com. ²Overview of available apps at android.com ³3 years inclusive, individually extendable thereafter. ⁴Not in conjunction with standard equipment. ⁵Selected Android smartphones; for compatibility see smart.com/connect.

LED & Sensor package.

See and be seen: the headlamps with welcome function welcome you as soon as you unlock your smart. The LED daytime driving lights with fibre-optic technology and the LED tail lights will accompany you attentively through the day. The front fog lamps with cornering light function additionally illuminate the corner if you indicate at a speed below 40 km/h. And should it rain or get dark, the ever-vigilant rain and light sensor is on board.

- > H4 halogen headlamps with welcome function, integrated daytime driving lights with LED fibre-optic technology and LED tail lamps
- > Front fog lamps with cornering light
- > Rain/light sensor

Comfort package.

Make yourself comfortable – in more respects than one. The height-adjustable driver's seat and the height-adjustable steering wheel included in the Comfort package can be perfectly adjusted to your height.

- > Height-adjustable driver's seat
- > Backrest adjustment with one-touch function for driver and front passenger
- > Height-adjustable steering column
- > Electrically adjustable and heated door mirrors
- > Height-adjustable seat belt for driver and front passenger
- > Belt guide on driver's seat

Stowage Space package.

Making space: the Stowage Space package allows you to put your belongings away quickly, safely and tidily in the glove compartment or stowage net, or on the passenger seat.

- > Glove compartment, lockable
- > Stowage net on centre console in passenger footwell
- > Retaining strap for securing items on the front passenger seat

>> For more lightness.

Alloy wheels — the choice is yours: the design and colouring add visual highlights from sporty to elegant. From silver to black or two-tone — the unusual look of the wheels is perfectly in keeping with the design of the smart forfour.

38.1 cm (15-inch) 4-spoke alloy wheels (R32), painted in black with a high-sheen finish, with 165/65 R 15 front tyres and 185/60 R 15 rear tyres

38.1 cm (15-inch) 5-twin-spoke alloy wheels (R87), painted in black with a high-sheen finish, with 165/65 R 15 front tyres and 185/60 R 15 rear tyres

38.1 cm (15-inch) 8-spoke alloy wheels (R88), painted in silver, with 165/65 R 15 front tyres and 185/60 R 15 rear tyres

40.6 cm (16-inch) alloy wheels (R91)¹ in 5-twin-spoke design, painted in black and featuring a high-sheen finish, with 185/50 R 16 front tyres and 205/45 R 16 rear tyres

40.6 cm (16-inch) alloy wheels (R95)¹ in 8-Y-spoke design, painted in black, with 185/50 R 16 front tyres and 205/45 R 16 rear tyres

43.2 cm (17-inch) BRABUS Monoblock IX alloy wheels (R90)² painted in matt grey, with 185/45 R 17 front tyres and 205/40 R 17 rear tyres

43.2 cm (17-inch) BRABUS Monoblock IX alloy wheels (R81)² painted in matt grey and featuring a high-sheen finish, with 185/45 R 17 front tyres and 205/40 R 17 rear tyres

¹Only in conjunction with Urban Style package or Sleek Style package. ²Only in conjunction with BRABUS Style.

» For more sun.

The optional roof variants of the smart forfour are open to every ray of sun. Regardless of whether you enjoy the good weather through the large panoramic roof or opt for an open folding top – both offer a feeling of spaciousness and let in lots of light.

The large panoramic roof with integrated sunblind gives you great visibility upwards as well. So even when you have a solid roof above your head you can still enjoy a view of the sky.

With the electric folding top you can always decide just how much summer you want. It opens and closes to any position in around 10 seconds – at a driving speed of up to 100 km/h.

>> For more comfort and functionality.

Make your everyday life a little more enjoyable: with ambient lighting for a pleasant atmosphere whilst driving, for example. Or for special added comfort: with the readyspace seats at the rear which enable you to create more space for transporting larger items in next to no time.

Available as individual options

- > readyspace seats at rear with removable cargo box, rear seat backrests offering 50/50 split folding and cargo position (fig. 1)
- > Glove compartment, lockable¹ (fig. 2)
- > JBL sound system, including 8-channel DSP amplifier with a total output of 320 W in conjunction with 12 high-performance loudspeakers, including removable sub-woofer in luggage compartment (fig. 3)
- > Reversing camera (fig. 4)
- > Folding centre armrest at front (not shown)
- > Tablet holder for iPad Air^{®2} (fig. 5)

- > smart Audio-System with AUX/USB interface, Bluetooth[®] interface with hands-free system, smartphone voice control and audio streaming for music transfer
- > Digital radio for DAB, DAB+ and DMB standards (not shown)
- > Dashboard instrument with cockpit clock and rev counter (fig. 1)
- > Ambient lighting with indirect illumination of doors, footwells for driver and front passenger, glove compartment and centre console (fig. 2)
- > Heated seats for driver and front passenger³ (fig. 3)
- > Luggage compartment cover with stowage net in the boot (not shown)
- > Electrically adjustable and heated door mirrors (not shown)
- > Heat-insulating dark tinted glass for rear window and rear side windows (fig. 4)
- > Automatically dimming rear-view mirror (fig. 5)

¹For passion, perfect, prime only in conjunction with Stowage Space package. Available as optional extra with standard equipment specification.
²Incl. pre-installation, not in conjunction with universal pre-installation for smart accessories.

³Standard for prime equipment line and BRABUS Style.

Body in **cool silver**, tridion in **black** and radiator trim in **black**.

Body in **lava orange**, tridion in **white** and radiator trim in **white**.

Body in **white**, tridion in **cadmium red** and radiator trim in **white**.

Body in **graphite grey**, tridion in **lava orange** and radiator trim in **graphite grey**.

Body in **black**, tridion in **cool silver** and radiator trim in **cool silver**.

» For more variety.

The colour combinations available for the smart forfour are as varied as city life itself. Make your choice from the large range of colours available for the body, tridion safety cell and radiator trim. If possible, the latter should have the same colour as the body or the tridion safety cell – to make your smart look particularly good. You can also customise your smart forfour with the exclusive range of alloy wheels available.

Body in **autumn brown**, tridion in **black** and radiator trim in **black**.

Body in **midnight blue**, tridion in **graphite grey** and radiator trim in **graphite grey**.

Body in **cadmium red**, tridion in **black** and radiator trim in **cadmium red**.

Body in **black-to-yellow**, tridion in **black** and radiator grille in **black-to-yellow**.

>> For carefree driving: Service and road assistance.

To ensure that you enjoy your smart for as long as possible after buying it, we recommend professional, customised service from your smart service partner. Our experts are familiar with every nut and bolt in your smart. Try out our service for yourself.

smart service contracts

For carefree driving in your new car: choose the smart way to avoid additional garage costs, as unforeseen repairs, maintenance or wearing parts are already covered, depending on the service contract you select. And that pays off with optimum vehicle safety, a vehicle in tip-top condition and long retention of value.

Depending on your requirements and your budget you can choose between:

- > Extended Warranty with the Advance service contract
- > Maintenance package with the Compact service contract
- > Maintenance and wear package with the Compact Plus service contract
- > All-inclusive carefree package with the Excellent service contract

smart road assistance

The mobility guarantee is included when you buy your new smart – and is renewed each time you have your vehicle serviced at an authorised smart partner – up to a maximum of 30 years after initial registration.

Benefit from immediate expert assistance almost anywhere in Europe in the event of a breakdown, an accident, vandalism or little mishaps. If necessary, your vehicle will be towed to the next authorised smart service partner. And to ensure that you stay mobile we will provide you with a replacement vehicle. Alternatively, you can continue your journey by taxi, train or plane – including any costs for overnight accommodation.

24h service

It's good to know that smart is there for you almost everywhere in Europe, 365 days a year. Should you ever need assistance, you can contact our Customer Assistance Centre at any time on the toll-free number: 00800 2 777 7777¹.

>> For tailor-made solutions: Financial services.

With a smart you always stay flexible – also when it comes to financing. Our leasing, financing and insurance products are designed to get you behind the wheel of your smart in no time at all. At attractive terms that can be tailored to your needs. Your smart dealer will be pleased to advise you.

Financing

Would you like to finance your smart with instalments tailored to your needs? No problem. Talk to your smart dealer about the options that smart is able to offer you in cooperation with Mercedes-Benz Financial Services. You can also enjoy great flexibility when it comes to financing – right up to the question of whether you choose to keep your smart at the end of the term or exchange it for a new one.

Leasing

Always drive a new car whilst remaining financially flexible – leasing a smart is a good idea. You only pay for the use of the vehicle and so benefit from low monthly instalments. We will be pleased to inform you about our products that not only give you financial flexibility but also full peace of mind with a wide range of insurance cover.

¹Calls from mobile telephones may be subject to a charge depending on the service provider.

>> For all eventualities.

smart genuine accessories (available from your smart dealer) can be retrofitted to make sure you're all set for all eventualities. Small passengers and big-time entertainment in the rear, for example. Just ask at your smart centre.

Style & Travel equipment with direct adapter: the product of your choice – holder for tablet PC, coat hanger or ActionCam holder – is simply connected to the pre-installed slot on your seat using the direct adapter.

Luggage net Prevents lightweight objects from sliding around during the journey.

Boot tub, shallow Waterproof and non-slip. Protects the luggage compartment from wet, dirt and wear.

Valve caps, set of 4 Protect the wheel valves from soiling.

KIDFIX XP child seat For children up to approx. 12 years of age (36 kg). The backrest can be removed as necessary to use the "KIDFIX XP" as a seat booster.

Rep floor mats Durable, extremely hard-wearing needle felt mats, with embroidered smart lettering.

Beach towel in smart design. (B6 799 3616)

Snap-link key ring Anodised aluminium/stainless steel/polyester, length approx. 11 cm. Green/black (B6 799 3602) Orange/black (B6 799 3591) Blue/black (B6 799 3592)

Watch Stainless steel case with black PVD coating and calfskin strap. Waterproof to 5 ATM. (B6 799 3611)

>> For an urban lifestyle: the smart Collection.

Attractively attired. The smart Collection perfectly complements your smart forfour. Just like the passion, perfect and prime equipment lines, all products in the smart Collection are designed for real characters. Discover wearable, useful and practical items for every day and almost every situation at www.smart.com/collection.

Flatbrim cap in black/orange. Adjustable. (B6 799 3596)

Polo shirt with double-layer effect featuring orange mesh on cuffs and hem. (B6 799 3572-3576)

>> For a better overview.

¹Information on rated output and rated torque in accordance with directive 80/1269/EEC in the currently applicable version. ²Electronically limited. ³The figures stated were determined according to the prescribed measuring process, in this case the "NEDC CO₂ figures" in accordance with Art. 2, no. 1 of Implementing Regulation (EU) 2017/1153. The fuel consumption figures were calculated on the basis of these figures. The figures will vary according to the optional features selected. ⁴In accordance with the German fuel efficiency labelling ordinance for passenger cars (PKW-EnVKV), section 3a. The data do not relate to an individual vehicle and do not form part of an offer, but are intended solely for the purpose of comparison between the different types of vehicle. ⁵Measured from kerb to kerb.

⁶Figures in accordance with Directive 92/21/EC in the version 95/48/EC (mass in running order, fuel tank 90% full, with driver, 68 kg, and luggage, 7 kg, for vehicles with standard equipment. Optional equipment and accessories generally increase this figure, which means that the payload is reduced accordingly). ⁷Up to roof; in accordance with DIN 70020-1. ⁸Whichever occurs first. Indicated by maintenance interval indicator. An oil service plus is to be carried out every 20,000 km or once a year. ⁹Subject to compliance with servicing requirement. See price list for further details.

>> The smart service contracts.
Driving fun without any additional workshop costs.
Your smart service partner will be pleased to advise you.

We are pleased to take back your smart for environmentally friendly disposal in accordance with the European Union* (EU) Directive on End-of-Life Vehicles – but that day lies a long way off (*does not apply to Switzerland). To make it as easy as possible for you to return the vehicle, a network of companies exists which will take back your old car and dismantle and recycle it. You can return your vehicle to one of these companies free of charge. In this way you make a valuable contribution to closing the recycling loop and to saving resources. Further information on recycling end-of-life vehicles and the conditions of return is available at www.smart.com.

Regarding the information in this publication: changes to the product may have been made after going to press on 31.07.2018. The manufacturer reserves the right to effect structural or design modifications, colour changes and changes to the scope of delivery during the delivery period, insofar as such changes or modifications are reasonable for the buyer in due consideration of the seller's interests. Should the seller or the manufacturer employ codes or numbers to describe the order or object ordered, this alone shall not constitute a valid basis for the derivation of any rights. The photographs may include accessories or options that are not part of the standard scope of delivery. Any colour deviations result from the printing process. This publication may also contain variants and services that are not available in individual countries. Information on statutory, legal and fiscal provisions and their consequences apply only to the Federal Republic of Germany at the time that this publication goes to press. Please refer any questions on the provisions that currently apply in other countries and their effects to your smart sales representative.
